OBJECTIVES

A Passionate Computer Science student with a solid foundation in programming and a growing expertise in Artificial Intelligence. Eager to expand skills in full stack development, contribute to innovative projects, and collaborate effectively with peers to achieve shared goals.

EDUCATION

Helwan University

Bachelor, Computer Science and Artificial Intelligence (Software Engineering), 2023 - 2027

- Cumulative Grade: Very Good

PROFESSIONAL EXPERIENCE

- **Full Stack Web Development training at National Telecommunication Institute (NTI), in collaboration with ITIDA-Summer 2025.** *Jul 2025 - Aug 2025, Remote*
 - Learned and applied front-end and back-end technologies including **HTML, CSS, JS, PHP, Bootstrap, Laravel, MySQL**.
 - Built and deployed small-scale full stack web applications as part of the training projects.
 - Gained practical skills in **version control (Git/GitHub)** and web application deployment.
- **Web Development Fundamentals – Sprints** *Jun 2025 - Aug 2025, Remote*
 - Learned core **Software Engineering concepts** including SDLC, software characteristics, design principles, and software diagrams.
 - Practiced **Git & GitHub** for version control and collaboration.
 - Gained hands-on experience with **API integration** and basic web development skills.
- **AI career essentials in ALX** *Mar 2025 - May 2025, Remote*
 - Explored practical applications of AI tools across various career paths.
 - Learned strategies to integrate AI into workflows for enhanced productivity.
 - Gained insight into emerging AI trends and ethical considerations.
- **Marketing strategies and social media marketing tools** *Feb 2024 - Mar 2024, Remote*
 - Studied digital marketing fundamentals and online audience targeting.
 - Gained hands-on experience with social media analytics and campaign optimization.
 - Learned to use marketing tools for content creation and performance tracking.

CERTIFICATIONS

- Full Stack Web Development – NTI & ITIDA, Aug 2025
- Web Development Fundamentals – Sprints , Aug 2025
- AI Career Essentials – ALX , May 2025
- Marketing Strategies and Social Media Marketing Tools, Mar 2024

PROJECTS

- **Courses Management System – Personal Project (Laravel)** *Aug - 2025*
 - Implemented user authentication and role-based access control for Admin, Instructor, and Student.
 - Created course management (CRUD) functionality with content upload and editing.
 - Added student enrollment system with progress tracking and course completion status.
 - Integrated search to improve course discovery.
 - Used Git/GitHub for version control and collaborative development workflow.
- **Hangman Game – Frontend Project** *Jul - 2025*
 - Created an interactive Hangman game using **HTML, CSS, JavaScript**.
 - Implemented dynamic word generation, score tracking, and visual feedback for correct/incorrect guesses.

- **CPU Scheduling Project – University Task | Round Robin Algorithm with GUI (Linux)** **May - 2025**
 - Developed the Round Robin CPU scheduling algorithm with a graphical interface in Linux environment.
 - Allowed user input for process details and time quantum, and calculated Waiting Time, Turnaround Time, and Response Time.
 - Implemented process scheduling using a queue to ensure fair execution.
 -
- **Educational Center Management System – University Project** **Dec - 2024**
 - Designed a management system for a private educational center in Egypt.
 - Created Functional Requirements, Class Diagram, Use Case Diagram, and Sequence Diagram using UML.
 - Skills: Requirements Analysis, System Design, UML Modeling, Teamwork.
- **Web Development Project – University Coursework | Frontend Developer** **Apr - 2024**
 - Developed a responsive website with dummy data and static content for demonstration purposes.
 - Built the frontend using HTML, CSS, JavaScript.
 - Collaborated with team members to design the UI and ensure smooth navigation.

SKILLS

- **Programming Languages:** Python, C, C++, Java (OOP)
- **Web Development:** HTML, CSS, JavaScript, Bootstrap
- **Databases:** MySQL
- **Tools & Version Control:** Git, GitHub
- **Concepts:** Object-Oriented Programming (Java), Data Structures & Algorithms (C++)
- **Interpersonal Skills:** Management, Organization Skills, Problem Solving, Communication, Teamwork, Time Management.

LANGUAGES

Arabic: Native speaker

English: Upper-Intermediate
